

Bokhtear Md. Abid

39 New Paltal Lane, Azimpur, Dhaka-1205, Bangladesh

+880 1628-759989 | bokhtearmdabid@gmail.com | LinkedIn | GitHub | Portfolio

Profile

Detail-oriented CSE graduate and web developer skilled in Django, JavaScript, and REST APIs, with a track record of shipping full-stack projects from design through live deployment.

Professional Experience

Digitafy

Web Developer Intern

Jan 2026 – Apr 2026

Dhanmondi, Dhaka

- Built and maintained client-facing web applications using HTML, CSS, JavaScript, and Python/Django, collaborating with the team to ship assigned features on schedule.

Education

University of Asia Pacific

B.Sc. in Computer Science & Engineering

2022 – 2026

Dhaka, Bangladesh

Birshreshtha Munshi Abdur Rouf Public College

Higher Secondary Certificate

2020

Dhaka, Bangladesh

Birshreshtha Munshi Abdur Rouf Public College

Secondary School Certificate

2018

Dhaka, Bangladesh

Competence

Languages: Python, JavaScript, SQL, HTML5, CSS3

Frameworks & Environments: Node.js, Django, React, Bootstrap, Pandas, Scikit-learn

Databases: MySQL, MongoDB, Firebase

Tools & Platforms: Git, GitHub, Vercel, Render, Postman

Core Concepts: Object-Oriented Programming (OOP), RESTful APIs, Database Design, SDLC

Projects

RoktoDan BD – Blood Donor & Recipient Platform

Sep 2025

- Full-stack platform (**Django, HTML5/CSS3, Render**) connecting blood donors and recipients, owning the build from database design through live deployment.
- Implemented role-based authentication for donor/recipient flows, real-time donor search, and profile management.
- Link:** roktodanbd.onrender.com

Dengue Outbreak Prediction Model

June 2026

- Machine learning pipeline (**Python, Scikit-learn, Pandas**) analyzing historical public health data to forecast dengue outbreak trends across Bangladesh.
- Compared classification and regression algorithms to identify the strongest outbreak-risk predictors, with visualizations supporting proactive public health measures.

Onggoshree – Skincare E-Commerce App

2026

- Built a full-stack e-commerce app with **React Native (Expo)** mobile client and **Node.js, Express, MongoDB** backend, featuring server-verified pricing/stock and a Skin AI camera-based recommendation flow.
- Implemented secure auth using **JWT, bcrypt**, and native **Google Sign-In**, plus a Glow Club loyalty system with automatic point accrual, tiered progression, and atomic reward redemption.
- Built a role-gated admin panel and integrated transactional emails via **Nodemailer**.
- GitHub Repository:** github.com/bokhtearmdabid/Onggoshree

Certifications & Languages

Certifications: AI+ Prompt Engineer (AI CERTs); GCI World April 2026, Matsuo-Iwasawa Laboratory, The University of Tokyo

Languages: English (Advanced), Bengali (Native)
